MDN Edify EDUCATION
LEADING YOUNG INDIA

OUR FOUNDER & VISIONARY

SHRI DAYANAND AGARWAL JI

VISION

Our vision is to foster a society of individuals capable of progressive thinking, creating and initiating positive change in the social, economic and cultural fabric thus making a strong impact on the global community through knowledge, understanding and attitude.

MISSION

We aspire to nurture individual talents and abilities by empowering all children, to help develop them into relatively disciplined and dynamic leaders of the future. These children will go on to become active global citizens contributing richly to our nation and the world. Our responsibility is to raise them as independent, responsible, resourceful and successful individuals with high self-esteem and confidence.

Editorial Board

MDN Edify Education

Six Pocket Syndrome – When Too Much Love Turns into a Problem

Have you heard of "Six Pocket Syndrome"? It is a modern term describing how one child is supported by six adults: two parents and four grandparents. That means six pockets full of love, attention, and money for one child.

While it sounds ideal, it often leads to unexpected problems. When every wish of a child is instantly fulfilled, like a new toy, gadget, or trip, it can create a sense of entitlement. The child starts believing, "Whatever I want, I'll get."

Example:

Take Aarav, adored by his parents and grandparents. Each time he asks for something, someone buys it immediately. Gradually, he begins expecting instant rewards and gets upset when told "no." This is how Six Pocket Syndrome shows up in daily life.

Why It Happens:

Single-child families where all attention and money go to one child.

Working parents who try to make up for lost time with gifts.

Grandparents who express love through pampering.

Higher incomes that allow more spending on luxuries.

What Studies Say:

A study by NIMHANS found that 65 percent of urban children show signs of impatience and entitlement due to overindulgence. Children without siblings receive up to 40 percent more spending on non-essentials than those with siblings. Experts warn that excessive pampering reduces patience, gratitude, and empathy.

Effects:

Poor tolerance for failure.

Less gratitude and difficulty sharing.

Resistance to rules and authority.

Solutions:

Spend quality time instead of money.

Say "NO" when necessary to build self-control.

Teach gratitude and appreciation.

Keep rules consistent between parents and grandparents.

In the End:

Love is essential, but overindulgence can harm. Balance affection with discipline so children grow up loved, confident, and grateful, not entitled.

Hello, incredible Edifiers!

Get ready to dive into the vibrant world of our second edition of EdiPrints! This isn't just a newsletter - it's a celebration of you, our amazing community and the extraordinary journey we're on together. Our campuses are electric with possibility, buzzing with the sounds of discovery and the bright energy of minds destined for greatness.

Let's raise the roof for our phenomenal students and their breathtaking success in the 2024-25 Board Examinations! You've not just passed tests - you've shattered expectations and shown the world what Edifiers are made of. These spectacular achievements belong to all of us - to the determined students who gave their all, to our passionate educators who light the way, and to our wonderful parents who stand with us every step of this adventure. Together, we're building something truly special.

Flip through these pages and prepare to be amazed! You'll discover the magic happening in our classrooms and beyond - from mind-expanding science projects that challenge what's possible, to breathtaking art that speaks to the soul, to community initiatives that are changing lives. This is learning that matters. This is education that transforms.

At the heart of it all beats our innovative 3C Curriculum, supercharged with cutting-edge technology and real-world skills. We're not just keeping up with the future - we're helping to shape it, with smart classrooms, hands-on learning, and projects that blur the lines between subjects.

So turn the page and let yourself be inspired by these stories of growth and triumph. Let them fuel your dreams and remind you that at Edify, anything is possible. Keep reaching higher, keep dreaming bigger and always remember - the most exciting adventures begin with curiosity.

The future is bright, and it's ours to create together! Let's make this year unforgettable,

Dr. Abhishek Sharma

Editor - EdiPrints

Our Vision and Mission

Vision

Our vision is to foster a society of individuals capable of progressive thinking, creating and initiating positive change in the social, economic and cultural fabric; to create a strong impact in the global community through knowledge, understanding and attitude.

Mission

We aspire to nurture individual talents and abilities by empowering all children and help them develop into relative, disciplined, dynamic leaders of the future. These children will go on to become active global citizens contributing richly to our nation and the world. We take responsibility to raise them as independent, responsible, resourceful and successful individuals with high self esteem and confidence.

A Journey Beyond Records: The Edify Spirit of Excellence - Edify School Kanakapura (Karnataka)

From the Principal's Table

"Dream big, start small and act now - every world record begins with one inspired idea."

A Historic Milestone in Education

In a spectacular display of talent, discipline, and innovation, Edify School, Kanakapura Main Road, managed by Vasavi Vidyanikethan Trust (VVN Trust), has made history by becoming the first school in Karnataka to set 31 world records in just seven days, establishing a global benchmark in school education.

What began as a small idea in a planning meeting soon evolved into a massive collaborative journey of determination, creativity, and relentless effort. It was a true embodiment of Edify's motto "**Think Beyond**. Think Big."

Every student, teacher, and parent stood united under one vision - that no stone would be left unturned, and every child would have a moment to shine.

Edify believes in education that transcends textbooks - where learning is lived, shared, and celebrated. This philosophy formed the very heart of our record-making journey.

A Dream Takes Flight – The Beginning

The historic journey toward creating world records at **Edify School, Kanakapura Main Road** began in **June 2025** with an introductory meeting with **Dr. K. Pradeep Kumar, a renowned academician and world records strategy expert with 114 world record titles from Coimbatore.**

What started as a visionary discussion soon grew into a mission that united every stakeholder - students, teachers, parents, and administrators - under one shared goal: *to make Edify a name etched in the pages of world records.*

Soon after, **Academic Administrators and Coordinators** joined the process, and brainstorming sessions began to identify potential record-setting areas. After thoughtful deliberation, we finalized three major domains:

- **Book Review Relay**
- **Storybook Publication**
- **STEAM-Based Projects**

The record titles were formally proposed as:

1. *Most Participants in a Book Review Relay in 12 Hours*
2. *Most Authors Contributing Maximum Fictional Short Stories to a Single Book*
3. *The Most STEAM-Based Projects Simultaneously Exhibited and Presented by a Team*

Along with these, **28 individual students** were also registered to attempt unique world records — each representing excellence in a different discipline.

"A shared dream became a shared mission — and from that moment, there was no looking back."

Laying the Foundation – Planning and Preparation

The months that followed were filled with intense planning. Detailed **circulars** were issued, and **two rounds of parent meetings** were held to ensure transparency and clarity.

Challenges surfaced — fee collections, scheduling, and time management — but they were swiftly resolved through collaborative efforts involving parents, teachers, and administrators.

By **the first week of August**, the mission had gained structure. A **Zero Period timetable** was introduced, maintaining academic balance while accommodating rehearsals and record preparations. Duties were clearly distributed among staff, and expectations were clearly defined.

"As a Principal, I had butterflies in my stomach. But seeing my teachers' energy and students' enthusiasm, I knew — we were ready."

The Pulse of Preparation – Books, Stories, and STEAM

August was an electrifying month. Our librarian became the most sought-after person, meticulously categorizing **over 1,000 books class-wise**. Students began preparing book reviews with immense zeal.

Teachers evaluated drafts, Academic Administrators verified them, and finally, I personally reviewed and forwarded the copies to the world record organizations. Within just three days, we received the official confirmation — **our reviews were approved!**

Soon after, **on-stage rehearsals** began. Students from Grades 1 to 12 performed their reviews with clarity, confidence, and charisma. The auditorium echoed with their voices — each word a symbol of Edify's excellence.

Parallelly, **story writing** and **STEAM project planning** were underway. Each individual participant was assigned a dedicated mentor for training and updates. Budget discussions followed, and with the team's innovation, we replaced thermocol with **eco-friendly cardboard**, ensuring both cost-efficiency and sustainability.

"It wasn't just about meeting a target — it was about doing it responsibly, creatively, and meaningfully."

The First Milestones – Making Headlines

24th August 2025 marked a proud moment as we officially announced our world record journey at the **Bangalore Press Club**. The event garnered significant media attention and created ripples of excitement.

Soon after, the first individual record attempt took place on **29th August 2025**, when **Shlok Mathur (Grade VII)** achieved *"The Largest Origami Houses Mosaic by an Individual (Minor-Male)"*.

The mosaic — a stunning outline of **Dr. A.P.J. Abdul Kalam's** face made with 10,000 origami houses — was a breathtaking tribute to creativity and perseverance.

"That day, the spark of possibility became a flame of achievement."

Record After Record – Days of Glory

The next day, **30th August 2025**, witnessed the grand event —
"Most Participants in a Book Review Relay in 12 Hours."

The program began with the ceremonial **lighting of the lamp**, a soulful **invocation song**, and inspiring addresses from the adjudicators, dignitaries, and myself.
At exactly **6:00 a.m.**, 365 students began their reviews, each presenting with poise and purpose. The relay concluded at **6:15 p.m.**, marking a triumphant success — **365 reviews approved** and a world record achieved!

The momentum continued on **31st August 2025** with the record attempt for
"Most Authors Contributing Maximum Fictional Short Stories to a Single Book."
Over **322 student authors** contributed a total of **641 stories**, showcasing their creativity and imagination.

The same day, **Sai Sannidhi (Grade IV)** created history as the *"Youngest to Publish a Fiction Book Containing the Most Short Stories."* Her dedication and confidence inspired everyone present.

"Each child's achievement became a story of courage — written not in ink, but in determination."

September – A Symphony of Hard Work

September was a month of balancing brilliance — academics, rehearsals, assessments, and STEAM exhibitions all progressing simultaneously.
Despite the packed schedule, our structured Zero Period system ensured smooth coordination. Teachers' guidance, parents' cooperation, and students' enthusiasm made it all possible.

On **25th September**, we held our second **Press Conference** featuring individual record participants. The following day, **26th September**, the grand **STEAM-Based Project Exhibition and Record Evaluations** took place.

Distinguished guests including **Mr. Lakhan Lal Meena (CBSE Regional Officer)**, Mr. **Garv Agarwal, Director, MDN Educations** and **Trustees from VVN Trust** graced the occasion. The event unfolded flawlessly — from documentation and evaluation to adjudicator briefings and student demonstrations.
The hall vibrated with pride as each student performed confidently, achieving success after success.

"Excellence is not an act but a habit — and our students lived that truth."

October – The Culmination of Glory

October arrived with the final crescendo of achievements.
On **10th October 2025**, two brilliant students —
Advik Yambalada (Grade IV) and **Rithvik Agarwal (Grade VIII)** — achieved their respective records for *Longest Public Speaking Marathon* and *Longest Guitar Concert by an Individual (Minor-Male).*
Their performances were extraordinary — inspiring, emotional, and unforgettable.

Finally, on **12th October 2025**, we celebrated the **Grand Citation Ceremony**, attended by an eminent galaxy of guests — including:

- **Shri Gaurish Akki**, Founder & Director, Gaurish Akki Studio
- **VVN Trust Members**, led by **Shri T. Srinivas and Dr. Manandi N. Suresh**.
- **Principals from reputed institutions across Bengaluru**
- **Official Adjudicators** from *Elite World Records*, *Asian Book of Records*, and *Indian Book of Records*

The atmosphere was electric with pride, applause, and emotion. Each certificate symbolized a milestone — not just of record-making, but of teamwork, resilience, and dreams realized.

"That day, Edify didn't just make records — we made history."

The Record Makers: Student Achievers Who Made History

"Our students didn't just chase records — they redefined what's possible."

Each young achiever showcased exceptional talent, focus, and innovation across disciplines — from STEM and mathematics to art, robotics, and language:

Individual Records

- **Sakshi Shetty (Grade VI) –** *Most Mathematical Concepts, Definitions, and Formulae Demonstrated in 30 Minutes (424).*
- **Shriyan Karthik (Grade VIII) –** *Most Basic Semi-Functional Robotic Models Assembled in 8 Hours by an Individual (Minor-Male) (66).*
- **Sharabh Shahi (Grade II) –** *Most Basic Semi-Functional Robotic Models Assembled in 3 Hours (30).*
- **Devaiah Munjandira Ganapathy (Pre-Mont) –** *Most Early Learning Facts Recalled and Recited in 20 Minutes (578).*
- **Kushagra Parial (Grade II) –** *Most Words Spelled in a Spellathon in 30 Minutes (839).*
- **Brinda Kornipalli S (Grade VII) –** *Most Shlokas Recited in 20 Minutes (145).*
- **Tenith D.P (Grade II) –** *Most Dot-to-Dot Drawings Completed in 2 Hours (195).*
- **Rashmika Vinay K. Gowda (Grade III) –** *Most Pencil Shades Completed in 2 Hours (40 qualified shades out of 49).*
- **Rakkshithaa Vijay (Grade III) –** *Most Single-Digit Addition Problems Solved in 20 Minutes Using Abacus (310).*
- **Aadhya S (Grade III) –** *Most Three-Digit Mental Arithmetic Addition Problems Solved in 30 Minutes (414).*
- **Tejansh G (Mont-II) –** *Most Digital Images of Vegetables and Fruits Identified in 3 Minutes (220).*
- **Dhruva TejoRam Pallekonda (Grade III) –** *Most Single-Digit Mental Arithmetic Addition Problems Solved in 30 Minutes (779).*
- **Shikhar Chandra P (Grade III) –** *Most Two-Digit Mental Arithmetic Addition and Subtraction Problems Solved in 30 Minutes (314).*
- **Hemanth R (Grade VI) –** *Most Space-Based STEM Projects Presented in 4 Hours (53 projects, 48 qualified).*

- **Niyathi Sarpangala (Grade V) –** *Longest Keyboard Concert by an Individual (14 hours).*
- **Purvish Sai Chintamaneni (Grade VII) –** *Most Science Concepts, Definitions, and Formulae Demonstrated in 30 Minutes (390 qualified out of 410).*
- **Gaurav Sanath Gowda (Grade VI) –** *Most Shotput Throws (2 Kg) in 30 Minutes (731 qualified out of 767).*
- **Jashwanth Anand (Grade VI) –** *Most Consecutive High Roundhouse Kicks in 3 Minutes (204 qualified out of 224).*
- **Aarabhi R. Bharadwaj (Grade IX) –** *Longest Mandala Art Marathon (14 hours).*
- **Saurav Sanath Gowda (Grade VI) –** *Most Times Pyraminx Solved in 3 Hours (428 qualified out of 429).*
- **Habib Aahil (Grade VI) –** *Most Semi-Functional Robotic Models Assembled in 6 Hours (36 qualified out of 52).*
- **Samara Yumn Basha (Grade V) –** *Most Books Reviewed in 4 Hours (100).*
- **Shivam Mathur (Grade IV) –** *Most Yogasanas Performed on a Chair in 20 Minutes (59 qualified out of 120).*
- **Aarnavi Gowda K.S. (Mont II) –** *Most Dot-to-Dot Drawings Completed in 1 Hour by a Pre-Schooler (109).*
- **Advik Yambalada (Grade IV) –** *Longest Public Speaking Marathon by an Individual (Minor-Male).*
- **Rithvik Agarwal (Grade VIII) –** *Longest Guitar Concert by an Individual (Minor-Male).*
- **Sai Sannidhi S (Grade IV) –** *Youngest to Publish a Fiction Book Containing the Most Short Stories.*
- **Shlok Mathur (Grade VII) –** *Largest Origami Houses by an Individual (Minor-Male).*

Team Records

- *The Most STEAM-Based Projects Simultaneously Exhibited and Presented by a Team (Single Venue) counted to 1398 projects by 704 participants, was set by Edify School (Kanakapura Main Road), managed by Vasavi Vidyanikethan Trust, in Bengaluru District, Karnataka, India on September 26, 2025. Most Authors Contributing Maximum Fictional Short Stories to a Single Book.*
- *The Maximum Participants in a Book Review Relay in 12 Hours counted to 365. It was accomplished by Edify School (Kanakapura Main Road), managed by Vasavi Vidyanikethan Trust, in Bengaluru District, Karnataka, India on August 31, 2025.*
- The Most Authors Contributing Maximum Fictional Short Stories to a Single Book counted to 322 authors and 641 stories, was set by Edify School (Kanakapura Main Road), managed by Vasavi Vidyanikethan Trust, in Bengaluru District, Karnataka, India on October 12, 2025.

Epilogue: Beyond the Records

"We began with small steps, but our dreams had no limits."

The week-long Edify World Records Festival 2025 featured extraordinary feats across academics, arts, and sports. The event stands as a testament to Edify School's 14-year journey of academic distinction and innovation. By achieving 31 global records within one week, the institution has set a new benchmark in holistic education, inspiring schools across India to dream bigger and aim higher.

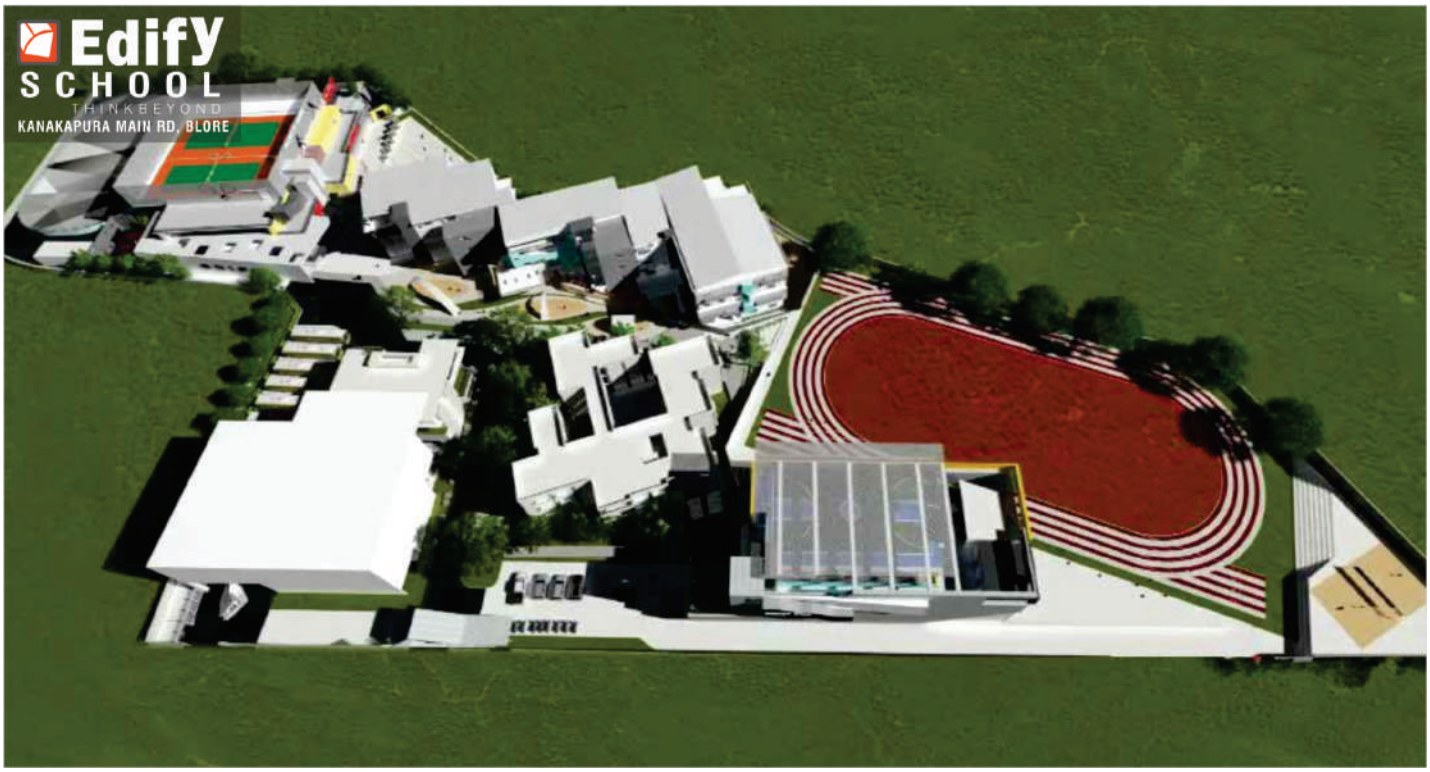

From a humble plan to a historic success — this journey was not about numbers, but about nurturing dreams, building confidence, and inspiring generations to come.

“We started small — but we dreamed big. And together, we made history.”

— Ms. Shashikala Bai B. E,

Principal,
Edify School, Kanakapura Main Road

Head Office

Dr. Som Prakash
Principal Advisor
MDN Edify Education

Visionary Educationist, Author, and Thought Leader

Dr. Som Prakash is a renowned educationist with over 24 years of dynamic experience across diverse domains of teaching, training, and educational leadership. Known for his visionary approach, he has seamlessly integrated traditional pedagogical wisdom with modern technology, making him a pioneer in tech-enabled education.

A compelling public orator, motivational speaker, philosopher, writer, and accomplished administrator, Dr. Prakash continues to inspire educators, students, and the wider community through his insightful ideas and transformative leadership.

A published author of five books, his critically acclaimed work "Seeds of Separation" explores the complex and poignant theme of the Partition of India. His poetry collection "Sunshine of My Heart" has been warmly received worldwide for its emotional depth and lyrical elegance. His book on financial literacy, "Paisa Ye Paisa," has garnered wide appreciation, while his latest educational publication, "Beyond Chalk & Talk," has become a notable reference among educators exploring modern pedagogies and 21st-century learning trends.

As a consistent and thought-provoking writer, Dr. Prakash has contributed over 50 articles on social and educational issues to leading online and print publications.

Beyond the written word, he has built a strong digital presence with over 500 educational and motivational videos addressing key societal themes, holistic well-being, and lifelong learning. As a thought leader and influencer, he continues to create meaningful opportunities for teachers and students to grow personally and professionally.

With a record of conducting more than 200 workshops and training sessions, Dr. Prakash is highly regarded as a dynamic and impactful resource person. His sessions are known for being insightful, engaging, and profoundly transformative.

An award-winning educator, he has been honored by numerous social and educational organizations for his outstanding contributions to the field. Passionate about nature, travel, and cultural exploration, he finds joy in connecting with people from all walks of life. A music enthusiast at heart, he enjoys singing in his leisure time, adding warmth and creativity to his vibrant personality.

New Members in the Team

Head Office

Mr. Rajiv Ranjan
AGM – Branding
& Marketing
MDN Edify Education

Welcoming Mr. Rajiv Ranjan to the Edify Family

We are delighted to welcome Mr. Rajiv to the Edify Education family. He will be primarily responsible for planning and executing branding and marketing initiatives across the organization, aimed at strengthening the visibility and positioning of the Edify brand across India and beyond.

Mr. Rajiv Ranjan brings with him over 16 years of diverse experience in Marketing and Communications, having worked with reputed organizations such as VEKA, Radha TMT, Tata Tiscon, My Home Group, and The Times of India. An MBA in Marketing and Finance from Dhruva College of Management, Hyderabad, Rajiv has developed a strong command over brand management, advertising, internal and external communications, events, exhibitions, content creation, and digital marketing strategies.

Known for his innovative thinking and creative approach, Mr. Rajiv Ranjan believes in blending traditional marketing practices with modern digital tools to build strong, relatable brands. His strategic insights and collaborative nature make him a valuable addition to the Edify team, especially as the organization continues to expand its footprint in the field of education.

Outside of work, Mr. Rajiv Ranjan is an avid practitioner of yoga, and enjoys maintaining a healthy lifestyle through fitness, cooking, and blogging. His balanced perspective on work and wellness perfectly aligns with Edify's values of holistic growth and lifelong learning.

We extend our best wishes to Mr. Rajiv and look forward to his dynamic contributions in enhancing the Edify brand and supporting the organization's vision of Leading Young Minds to Knowledge and Beyond.

Head Office

Mr. Raghvendra Singh
E-Commerce Operations
& Edischoolmart
MDN Edify Education

We are delighted to introduce Mr. Raghvendra Singh as the E-Commerce Operations Head at MDN Edify Education, leading the Edischoolmart Department.

Mr. Raghvendra brings over 10 years of professional experience in e-commerce and business management. He has been associated with reputed organizations such as Hindustan Adhesives, Amazon, Neerus, and Dr. Reddy's (Cancelled Plans), and has also founded his own tech startup based in Austin, Texas. He holds a Post-Graduation in Data Science & Business Analytics, with expertise in E-Commerce, Digital Marketing, and Operations.

In his role, Mr. Raghvendra will spearhead the development of a centralized procurement platform – Edischoolmart – aimed at connecting schools across India with verified sellers for their procurement needs. This initiative will streamline and simplify the procurement process by enabling both offline and online orders. Over the next six months, the platform will expand to include 10+ product categories and over 3,000 SKUs, based on school feedback.

Mentor - Mentee Speak

Mentor Speak

Mr. Sanjay G Nalwar
Science Teacher
Edify International School
Kalaburagi

"Being a mentor at Edify International School, Kalaburagi, has been one of the most fulfilling parts of my teaching journey. I've had the privilege of guiding curious young minds as they explore the wonders of science beyond textbooks. Watching my students grow confident in their experiments, think critically, and connect concepts to real-life applications has been truly inspiring. The school provides an environment where learning, creativity, and discovery go hand in hand."

Mentee Speak

When I stepped into the Edify International School is felt something special.

This School is not only for toppers but also for good artist, sportsman, best dancer, better singer, a karate champion or skaters.

In this school I like the most is motivating teachers, supportive staff, and inspiring Principal.

Hear we learn valuable lessons about leadership, discipline and perseverance. Our school teachers and staff, inspire and push us beyond the limits

To me Edify International School is more than school - it is my Family.

Sanidhya

Voice of our Stakeholders

Message from Director, Edify World School, Whitefield

Mr. M Venkateswarlu Reddy
Director
Edify World School
whitefield

It gives us great pleasure to present **EDIFY WORLD SCHOOL, WHITEFIELD**. The school represents the culmination of an aspiration to revolutionise the methods of delivering knowledge in order to enhance the quality and enjoyment of teaching and learning. Our mission is to be the pioneers in inspiring and preparing the leaders of the next generation. Our guiding principle is to endow our pupils with the capacity to innovate, engage, and achieve excellence. Our institution is devoted to delivering outstanding educational resources and avenues for the progress of students hailing from diverse socioeconomic backgrounds.

The school's Board is comprised of India's preeminent visionaries and educators. Aside from emphasizing the development of fundamental abilities, the curriculum emphasises comprehension, investigation, and innovation. In accordance with the NEP 2020's guiding principles, **EDIFY WORLD SCHOOL, WHITEFIELD** equips pupils with the skills necessary to thrive on the international stage. In addition to endorsing and supporting the SDGs, the school embodies the Edify! vision and mission.

Mr. N Kiran Kumar Reddy
Director
Edify World School
whitefield

It has become apparent to us that an education devoid of consciousness and values is capable of causing widespread destruction on the planet. It is our conviction that education is the most significant transformative force that humanity possesses; therefore, it is incessantly in need of improvement and refinement.

With the establishment of "**EDIFY WORLD SCHOOL – A CBSE & CAMBRIDGE** School in Whitefield" under our leadership, our overarching objective is to revolutionise the conventional understanding of formal education and foster global comprehension. Education must be aligned with the contemporary global challenges and should yield immeasurable benefits for society as a whole.

It is our conviction that "Success beholds those who follow their heart," notwithstanding the obstacles that may arise in our immediate surroundings and hinder the achievement of our objectives. Throughout it all, EDIFY WORLD SCHOOL, WHITEFIELD strives to provide students with ample real-world exposure and opportunities while fostering a nurturing environment that promotes their holistic development.

Voice of our Stakeholders

Message from Chairperson, Edify School, Chikkabanavara

"Education is the unfolding of the potential within each individual." – Swami Vivekananda

CA Sripal Jain
Chairperson
Edify School
Chikkabanavara

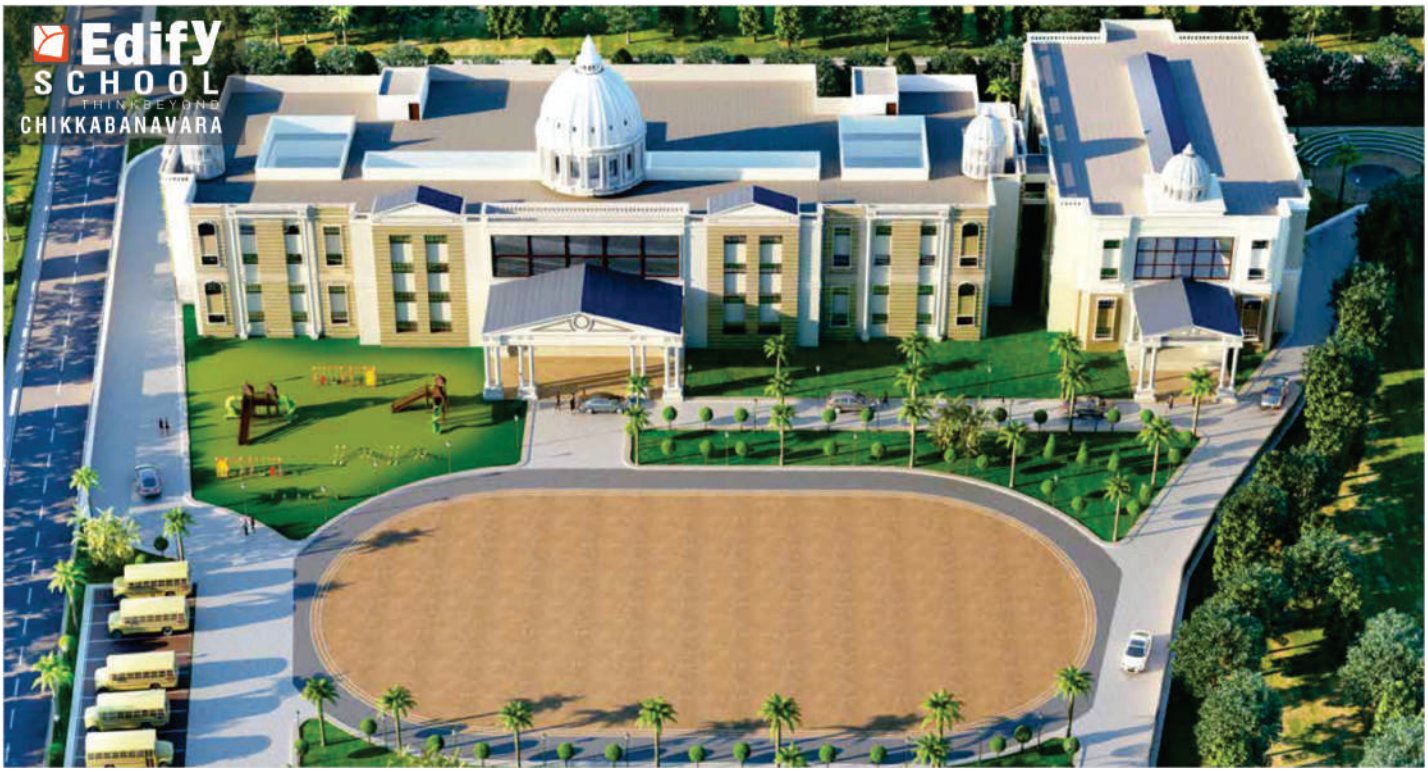

At Edify School, Chikkabanavara, we view education as a transformative journey — one that nurtures intellect, inspires creativity, and builds character. It is a joy to see our students grow each day into confident, compassionate, and capable individuals who are ready to take on the challenges of a changing world.

Our students are the heart of all we do — curious, creative, and full of promise. We take pride in shaping well-rounded learners who excel not only in academics but also in sports, arts, leadership, and community engagement. At Edify, every experience is an opportunity to learn, lead, and grow — developing minds that think critically and hearts that act with empathy.

The team at Edify School plays a pivotal role in this transformation. With passion and vision, they inspire every learner to strive for excellence, fostering curiosity, resilience, and a lifelong love for learning. Their dedication ensures that education here remains holistic, purposeful, deeply enriching.

To our parents, your faith and partnership are invaluable. Your involvement and encouragement form the foundation on which our collective success stands.

Together, let us continue to inspire, support, and celebrate the limitless potential of every Edify learner.

Voice of our Stakeholders

Message from Chairperson, Edify World School, Anantapur

Ms. Kameshwari Chintala
Chairperson
Edify World School
Anantapur

Dear Edify Community,
Greetings from Edify World School Anantapur!

In the heart of Anantapur, I am proud to share that our school is redefining what it means to learn, grow, and lead. With the Edify vision to provide holistic education that balances academic excellence with life skills, the school has become a beacon of progressive learning in the region.

At Edify, education extends far beyond textbooks. The school's **3C curriculum — Character, Competence, and Content** — encourages students to think critically, act compassionately, and communicate effectively. Every classroom is a space for exploration, collaboration, and creativity, guided by passionate educators who inspire curiosity and confidence in every learner.

The varied programs at school encourage students to discover their unique talents. The school's well-equipped infrastructure, digital classrooms, and experiential learning programs ensure that children are not just prepared for exams — they are prepared for life.

Rooted in respect, empathy, and integrity, every Edifian learns to become not just a scholar, but a responsible global citizen. The school focuses on all round development of the students and is growing from strength to strength.

As the school continues to grow, it remains steadfast in its mission: to create a community of learners who dream big, think independently, and act with purpose.

At Edify World School Anantapur, learning is a journey and every child is an explorer.

My good wishes to every school in the entire Edify community, as together we grow and reach greater heights!

DIGITAL

AAKASH DIGITAL - SCHOOL INTEGRATED PROGRAM

Aakash Digital (School Integrated Program): Live Online Classroom Program

Aakash Digital-SIP is an extended Classroom Courses designed to provide higher-order subject-matter exposure to students, delivered by National-level faculty over Live classroom Mode. The program aims to impart an integrated learning, spanning "Boards" & "Competition" preparation. The program is delivered using state-of-the-art, two-way interactive internet technology which offers the added advantage of review & revision.

- State-of-the-art studios & telecommunication facilities. The Classroom will channelize audio, video and data-enabled high- quality, faculty lectures to students of Class 8-12 (Medical & Engineering).
- Aakash Digital faculty uses smart audio-video facilities to see, hear and talk to the students.
- The students can see, listen and participate in a lecture and interact with the faculty spontaneously and naturally as in a regular classroom.
- They can also raise queries, respond to polls, attempt multiple choice questions and assessments & mark attendance.
- The classes are delivered through a unique AV setup using high-definition projection system and high-resolution reverse feed camera.
- All sessions conducted are recorded and are available to the students on request.
- MyAakash App facility for online tests.

Designed for the Students of

Class 8 and 10	Class 11 and 12
Preparing for Olympiad, NTSE, Other Competitive & Board Exams.	Preparing for NEET / JEE (Main & Advanced) & Board Exams

Aakash Digital, A-1/22, Makhan Building, Janakpuri, New Delhi 110058
www.aakashdigital.com

B. Advantages of Aakash Digital: School Integrated Program

- Best in Class National Level Faculty
- State of Art Technology to ensure uninterrupted learning
- Seamless transmission of High-Quality data
- 2-Way LIVE Interaction with minimum lag
- Internet Technology
- National Level Benchmarking in each class
- Peer to peer learning (In class learning) and Online Testing
- School Faculty participation (as coordinator)
- Affordable
- iTutor-Facility + Latest Study Material + All India Test Series

Aakash Digital, A-1/22, Makhan Building, Janakpuri, New Delhi 110058

C. Commercial for AY 2024-25:

Class	Student Fee per Year (Inclusive of taxes)
Class 8	INR 25000
Class 9	INR 25000
Class 10	INR 25000
Class 11 JEE	INR 30000
Class 12 JEE	INR 30000
Class 11 NEET	INR 30000
Class 12 NEET	INR 30000

D. Terms:

1. School to earmark separate rooms for conducting the classes.
2. School to arrange for the required multimedia hardware, software and internet connection with 100 MBPS of realized speed.
3. All amounts / fee mentioned above is INR (Inclusive of Taxes).
4. School will be responsible for collecting the fee from the students and paying to Aakash as per the agreed payment schedule.
5. School may opt for classes as per need. It is NOT mandatory to run the program for all the classes (8-12)
6. Course fee to be paid upfront in advance via Cheque / Wire Transfer. **Cash will not be accepted.**
7. Minimum student commitment from school should be 50.

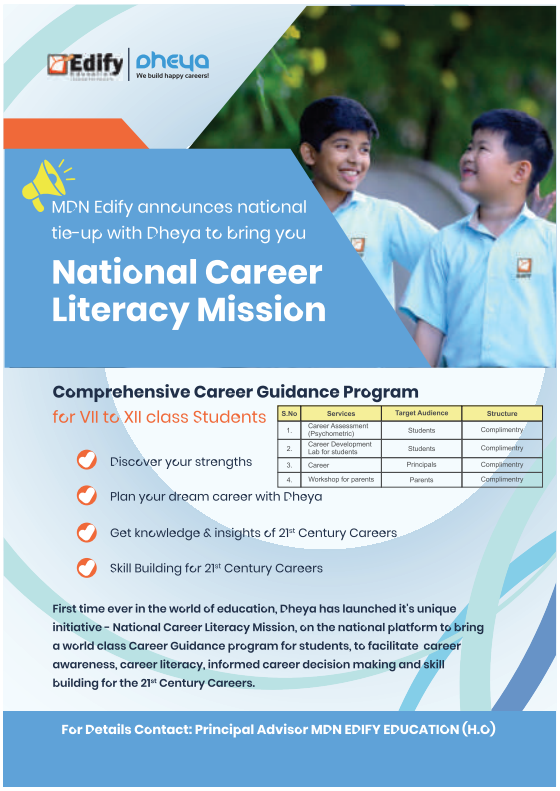

This proposal is valid for 20 days only.

Importance of external tie-ups for the school for overall development of the child Importance of external tie-ups for the school for overall development of the child

External tie-ups play a crucial role in the overall development of a child by bridging the gap between academic learning and real-world experiences. When schools collaborate with external organizations such as universities, industries, cultural institutions, and sports academies, they open a wide array of opportunities for students to learn beyond textbooks. These partnerships expose children to diverse fields such as science, technology, arts, sports, and entrepreneurship, helping them discover their interests and talents early on. Workshops, internships, guest lectures, educational trips, and hands-on projects offered through such tie-ups enhance critical thinking, creativity, and practical skills among students. Moreover, they foster essential life skills like communication, collaboration, and problem-solving, which are vital for success in the 21st century.

External collaborations also bring global perspectives into classrooms, encouraging cultural exchange and awareness among students, making them more empathetic and socially responsible citizens. Tie-ups with technology companies, for instance, ensure that students are equipped with the latest digital skills, preparing them for future careers. Similarly, partnerships with sports academies and wellness organizations emphasize physical fitness, mental health, and overall well-being, promoting a balanced development. For students aiming for higher education, connections with reputed universities and research institutions provide mentorship opportunities and enhance their academic profiles.

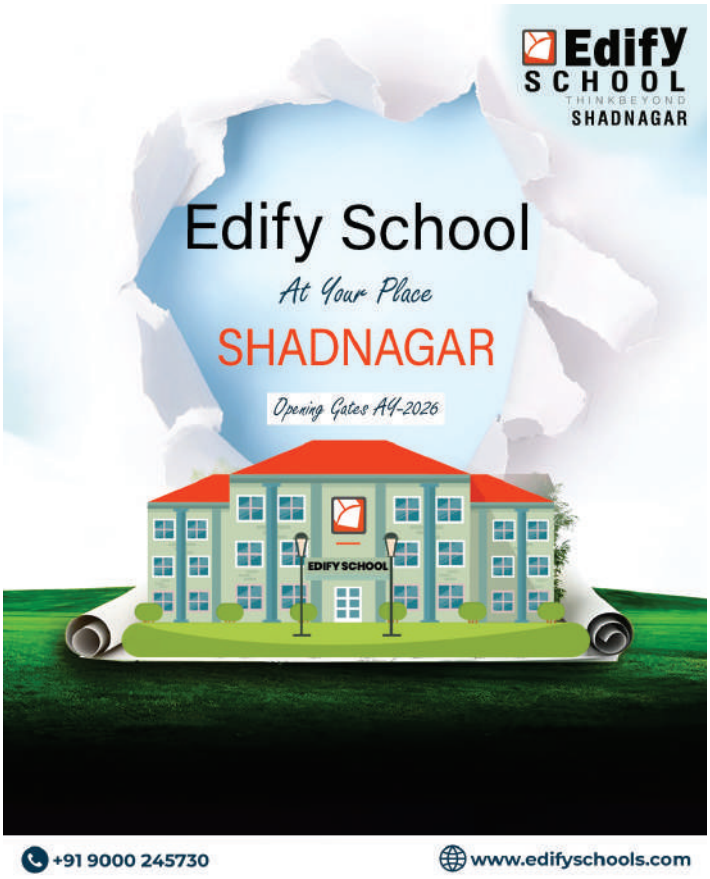

Importantly, such partnerships inspire innovation in teaching practices too, as educators receive exposure to global methodologies and can integrate fresh ideas into their classrooms. This dynamic learning environment nurtures curiosity, adaptability, and resilience among students. In today's fast-changing world, where knowledge alone is not enough, external tie-ups ensure that students are holistically prepared—academically, socially, emotionally, and physically—for the challenges of the future. Thus, strategic collaborations are not just add-ons but essential components for creating well-rounded individuals who can thrive in an interconnected and competitive world.

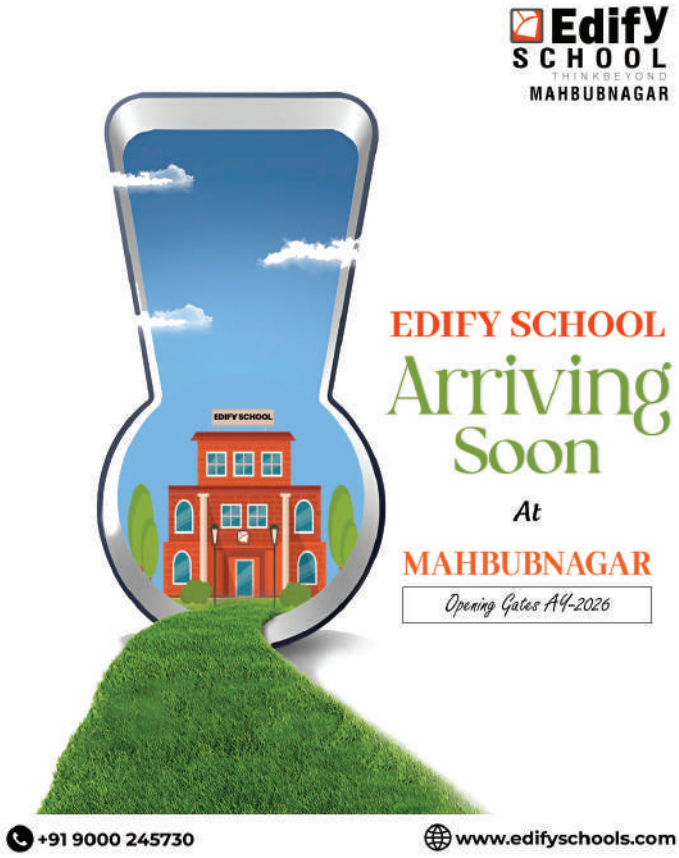

Luminous Launch of New Schools

Gen Z and Gen Alpha: How Cultural Values Are Undermined by the Advent of Social Media

1. Introduction: The Changing Educational Landscape

In the 21st century, learning is changing at a rate never before imagined. The classroom is no longer the sole site of instruction—today's students are surrounded by a digital environment that is vastly broader than the schoolhouse. Generations Z (born about 1997–2012) and Alpha (born after 2013) are coming of age in an era characterized by smartphones, social media, artificial intelligence, and rapid access to information.

Though these advances present vast potential, they disrupt conventional educational values and relations. Within these transformations, the student–teacher relationship is a central support of human connection, direction, and value establishment.

2. Who Are Gen Z and Gen Alpha?

Generation Z: tech-savvy, socially conscious, and digitally connected. They celebrate individuality, self-expression, and social justice. But they also face the challenges of mental illness, anxiety, and identity in the era of continuous digital exposure.

Generation Alpha: The first generation that's completely digital. Growing up in a world with smart devices, voice assistants, and virtual classrooms, they're accessing information with unprecedented ease—but with less exposure to old-school interpersonal interaction.

Both ages are dependent upon technology, which in turn shapes the way they think, communicate, and interact—also including how they relate to their teachers.

3. Conventional Student–Teacher Relationship

Traditionally, the teacher was more than a mere instructor. In most societies, particularly India and Asia, the teacher or guru is not only a mentor but also a moral guide, and in some cases, even a spiritual leader. The student–teacher relationship was established upon:

Respect and trust

Transmission of values and ethics

Holistic development — intellectual, emotional, and moral

Character formation and imparting discipline, compassion, and grit—values necessary for conscientious citizenship—were the responsibility of teachers.

4. The Changing Dynamics in the Digital Age

The advent of technology has shattered this conventional relationship.

Knowledge is no longer limited. Students have instant access to information on the Internet.

Learning is now transactional, much more result- and grade-oriented than person-oriented.

Teachers are no longer the only authority figures since influences, YouTubers, and AI systems guide opinions and thought patterns.

Social media culture encourages comparison, competition, and superficial approval, dissolving real emotional connections.

Under such an environment, students tend to see teachers as facilitators more than mentors—diluting the depth of the relationship.

5. Importance of the Student–Teacher Relationship in the Current Context

In spite of all these changes, the student–teacher relationship continues to be vitally important. It serves several critical functions:

a) Emotional Support and Mentorship

Teachers bring emotional stability to a world where online interactions tend to be superficial and transient. Most young learners experience pressure, loneliness, or confusion through pressures online. An empathetic teacher can provide compassion, understanding, and individualized direction.

b) Developing Critical Thinking and Ethical Awareness

While the web offers information, it doesn't impart judgment. Educators assist students in analyzing information, challenging sources, and distinguishing between fact and disinformation—a critical skill in a time of fake news and digital propaganda.

c) Humanizing the Learning Experience

Learning is not just about books; it's about developing values, compassion, and understanding. Educators infuse human warmth, humor, and practical wisdom that no computer program can provide.

d) Encouraging Individual Growth

Teachers know the capabilities and learning speed of every child and provide customized support. For generations accustomed to mass content, this personalized attention makes them confident and self-respectful.

e) Moral and Cultural Anchoring

During periods of accelerated globalization, teachers become guardians of cultural identity and moral heritage, facilitating students in remaining grounded while evolving with modernity.

6. How Social Media Undermines Cultural Values

Whereas social media brings connectivity and creativity, it also subtly but strongly shapes the young mind. Its influence on cultural and moral ethos is deep:

a) Emergence of Individualism at the Expense of Community

Social media sites such as Instagram and TikTok foster individual promotion and self-branding. Humility, collective progress, and respect for senior citizens are relegated to the background.

b) Breakdown of Respect and Discipline

Students increasingly challenge authority and traditional hierarchies—sometimes positively, but often rejecting them altogether. The informal style of online communication can bleed over into classroom communications, decreasing respect for teachers.

c) Transition from Real to Virtual Validation

Previously, appreciation came through effort, creativity, or contribution. Today, "likes" and "followers" measure self-worth, causing insecurity and comparison instead of true achievement.

d) Loss of Cultural Continuity

Global exposure can water down local cultures. Students are more impacted by global fashion than by classic art, literature, or moral teachings handed down the generations.

e) Shrinking Attention Spans and Shallow Learning

The accelerated, visually rich context of social media shortens patience for serious reading or introspective learning. This subverts the very fundamental educational process of contemplation and comprehension.

7. The Changing Role of Educators in the Social Media Era

Teachers need to reinvent themselves to remain relevant and useful in this rapidly changing scenario. The emphasis should be placed on merging technology with humanity.

a) Moulding Pedagogy

Teachers can utilize social media tools innovatively for academic purposes such as educational reels, polls, and live discussions without losing discipline or purpose.

b) Nurturing Digital Citizenship

Teachers should teach students about responsible online conduct respecting privacy, authenticating information, and being a good digital citizen.

c) Nurturing Value-Based Education

Combining moral and cultural studies with contemporary subjects guarantees that students acquire a well-rounded worldview. Empathy, collaboration, and honesty classes are as important as programming or science.

d) Fostering Relationships Beyond the Classroom

Educators need to be mentors who are attuned to students' emotional and social worlds. Authentic concern and dialogue can overcome virtual alienation.

e) Role Modeling

Students learn more through observation than through instruction. A teacher's patience, genuineness, and humility can encourage students to adopt the same values in their lives.

8. Restoring Balance: The Way Forward

To preserve the sanctity of student–teacher relationship and protect cultural values in this era of digitization, the following actions are essential:

Encourage Hybrid Learning with a Human Touch – Technology must complement, not substitute, human interaction.

Implement Media Literacy – Students need to learn to critically examine online material and identify manipulation or bias.

Cultural Integration within Curriculum Local values, literature, and moral teachings should be balanced with contemporary topics.

Regular Teacher Training Teachers ought to engage in regular professional training to grasp Gen Z and Alpha attitudes.

Parent Teacher Cooperation Parents and teachers need to collaborate to establish healthy digital boundaries.

Fostering Reflection and Mindfulness Journaling, art, and meditation can counterbalance the overstimulation of virtual life.

9. Conclusion: A Call to Reconnect

In a time when artificial intelligence can mimic conversation and social media sets trends, the genuine connection of student to teacher is still impossible to replicate. It is because of it that learning is made relevant, values are assimilated, and humanness is retained.

Teachers now are not merely knowledge transmitters they are navigators of the heart, leading impressionable students through a labyrinth of screen-based distractions toward purpose, integrity, and compassion. As we progress further into the Gen Z and Gen Alpha era, maintaining robust student-teacher relationships is no longer a choice it is a requirement to ensure education continues to foster not only intelligent minds, but wise hearts.

9 WAYS TO GET MORE DONE

Time Blocking

8am - 11am	Deep Work (your most important tasks)
11am - 11:30am	Quick Tasks (emails, phone calls, etc.)
11:30am - 12:30pm	Break (eat, exercise, relax) (h/t Cal Newport)
12:30pm - 2pm	Important Tasks (projects, planning, prep, etc.)
2pm - 4pm	Meetings (one-on-ones, follow ups, external)

3-3-3 Method

- Devote 3 hours to deep work on your most important task
- Do 3 other urgent, but shorter tasks (meetings, calls, etc.)
- Do 3 "maintenance" tasks (emails, cleaning, exercise)

(h/t Oliver Burkeman)

Getting Things Done

- **Capture**: Capture tasks by writing them down
- **Clarify**: Clarify priorities, organize task lists
- **Engage**: Engage with action by focusing on next steps
- **Regularly**: Regularly review and reflect on progress

(h/t David Allen)

Pomodoro Technique

- Decide Task
- Set timer 25 min
- Stop when timer goes off
- After 4 cycles take 15-30 min break
- Take 5 min break

(h/t Francesco Cirillo)

Eat the Frog

- Do your most important and challenging tasks first part of each day.
- Everything else will seem easy.

(h/t Brian Tracy)

2 Minute Rule

- If a task is less than 2 minutes, do it now.
- If task is greater than 2 minutes delegate or breakdown into smaller steps.

(h/t David Allen)

Eisenhower Matrix

	Urgent	Not Urgent
Important	Do	Decide
Not Important	Delegate	Delete

- Categorize tasks into four quadrants.
- Prioritize tasks based on their category.

(h/t Dwight D. Eisenhower)

80/20 Method

- List and assess all inputs.
- Rank and calculate their impact.
- Identify the vital few (20%).
- Focus on the 20%, and eliminate or reduce the trivial many (80%).

(h/t Vilfredo Pareto)

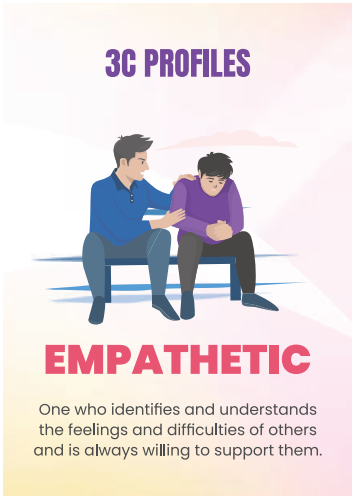

By Justin Mecham

Task Batching

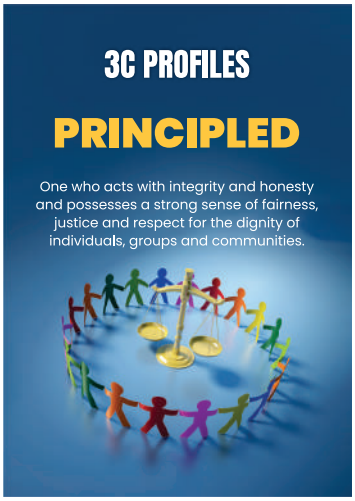

- Group similar tasks together.
- Complete these tasks in designated time blocks.
- Reduces the mental load of switching between different tasks.

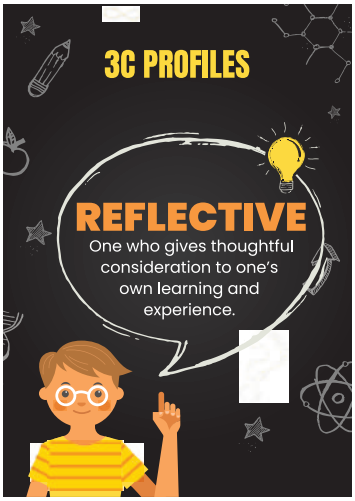

(h/t Cal Newport)

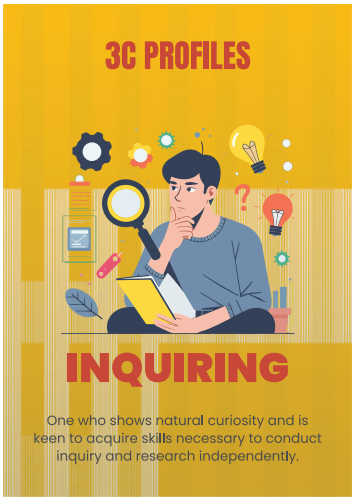

3C Profiles at a Glance

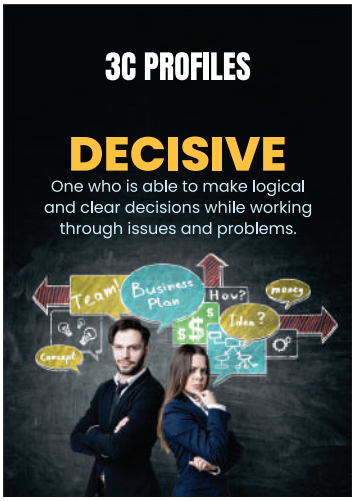

Six Pocket Syndrome

When Too Much Love Turns into a Problem

Have you ever heard the term “Six Pocket Syndrome”? It’s a new-age phrase that describes how one child is supported by six adults two parents and four grandparents. That means six pockets full of love, care, and, yes, money all for one child!

While this sounds like a dream come true, it often leads to some unexpected problems. When every demand of a child is instantly fulfilled a new toy, a fancy gadget, or a trip it may slowly build a sense of entitlement. The child begins to think, “Whatever I want, I’ll get it.”

A Simple Example

Let’s imagine little Aarav. His parents and grandparents adore him. Whenever he asks for a new video game or a cycle, someone buys it for him right away. Over time, Aarav starts expecting instant rewards and becomes upset if he’s told “no.” This is exactly what Six Pocket Syndrome looks like in daily life.

Why Does It Happen?

- **Single-child families:** All the attention and money go to one child.
- **Working parents:** They try to make up for their busy schedules by giving gifts.
- **Loving grandparents:** They can’t resist pampering their grandchildren.
- **Higher incomes:** Families can afford more luxuries than before.

Experts warn that when love is shown only through material things, children may miss out on developing qualities like patience, gratitude, and empathy

What Studies Say

- A study by psychologists at NIMHANS found that over 65% of urban children show signs of low patience or entitlement because of overindulgence.
- Another study revealed that children without siblings receive 30–40% more spending on non-essential items compared to those who have brothers or sisters.

How Can We Fix It?

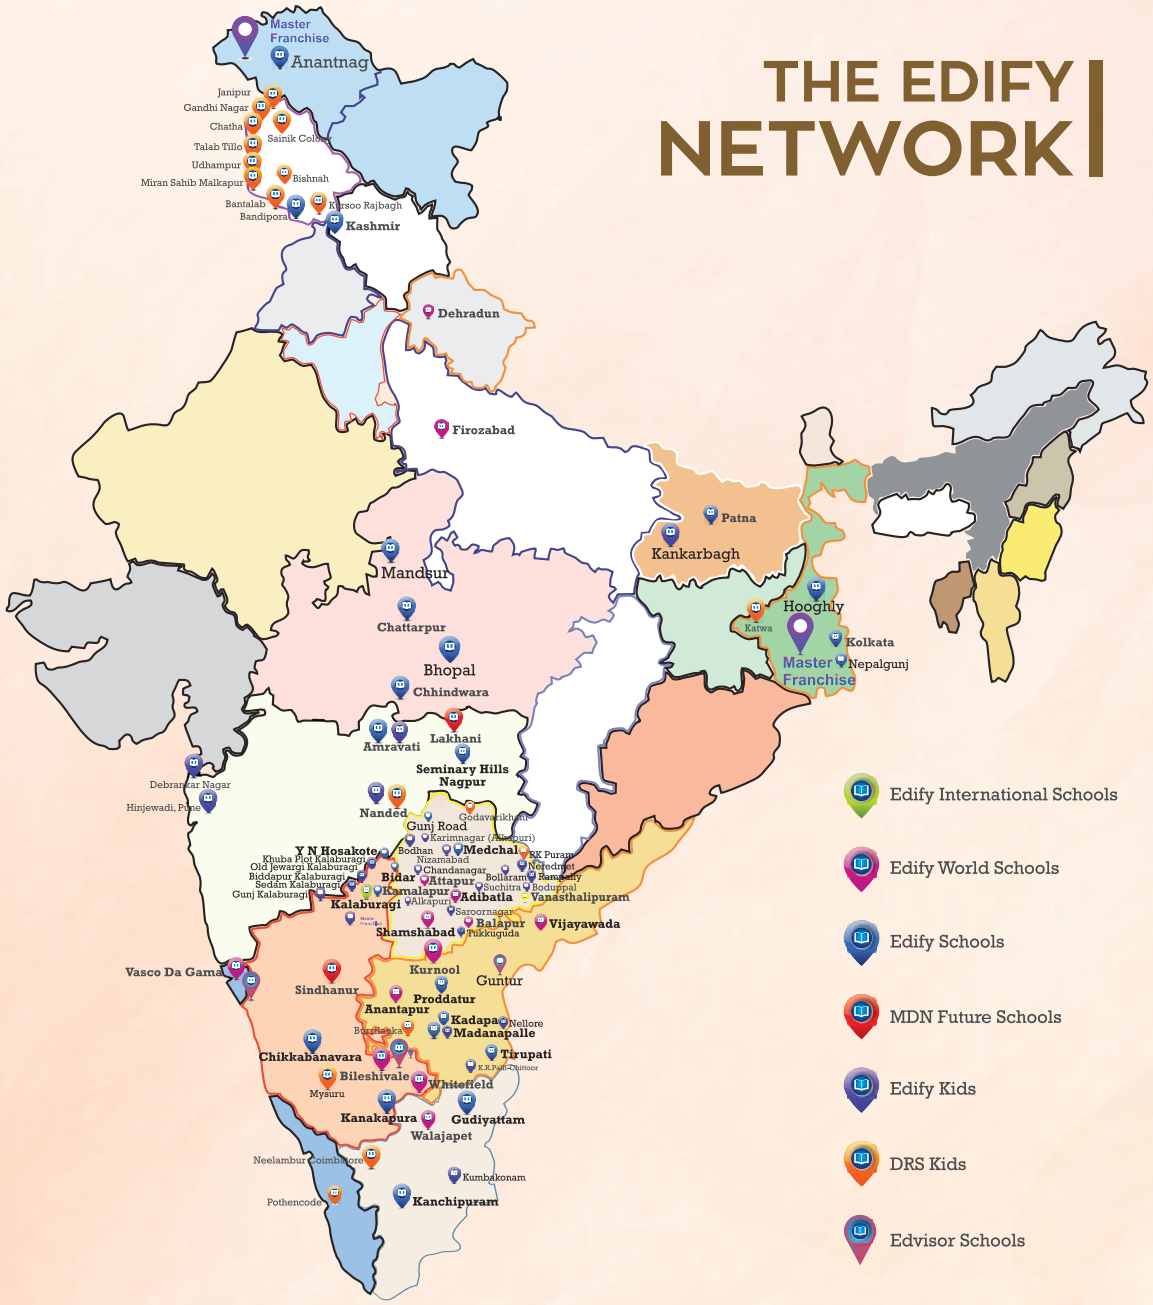

- **Spend time, not just money:** Family time means more than gifts.
- **Say “no” when needed:** It helps build self-control.
- **Teach gratitude:** Encourage children to value what they already have.
- **Keep family rules consistent:** Parents and grandparents should follow the same approach.
